EXPERIENCE

Lead Software Engineer (Laravel, Php, NextJS, React) (January 1, 2022 - Ongoing)
THE SOFT KING

Duties/Responsibilities:

- Led and supervised junior and mid-level developers by reviewing code, guiding project architecture, and ensuring high-quality deliverables.
- Personally developed full-scale web applications using Laravel, PHP, and modern JavaScript frameworks like React and Next.js.
- Handled project customization tasks as per client-specific needs, including third-party integration, UI/UX improvements, and business logic alterations.
- Communicated directly with international clients, understanding their requirements and delivering projects on time.
- Built and maintained real-time applications using WebSockets and socket servers to support chat systems, notifications, audio & vedio calling systems and live updates.
- Developed automation tools using Python and Selenium for web scraping, testing, and repetitive task automation.
- Worked extensively with Git for version control and GitHub for team collaboration and CI/CD workflows.
- Resolving complex issues and integration related to payment gateways, currency APIs, email/SMS delivery, server deployment, and cpanel/DNS configuration.
- Actively collaborated with cross-functional teams to plan, build, and launch scalable web solutions from scratch or improve existing systems.
- Promoted best practices in clean code, scalability, and security while mentoring team members and leading technical discussions.

Achievements:

The SoftKing

Employee of the month (3 times)

Being named Employee of the Month is truly a dream come true.
Coding has always been my passion, and reaching this milestone is a reflection of the journey fueled by that passion. I believe that self-confidence lays the foundation—half the battle is won when you believe in yourself. The rest is achieved through unwavering dedication, hard work, and a strong work ethic.

I'm grateful for the opportunity to grow, contribute, and be recognized. Here's to continuing the journey with purpose and passion.
